Fort Leonard Wood Graduation 2023: A Guide for Families and Graduates

Congratulations to all the graduating soldiers of Fort Leonard Wood in 2023! This momentous occasion marks the culmination of months, even years, of hard work, dedication, and sacrifice. For families and graduates alike, navigating the complexities of Fort Leonard Wood graduation can be overwhelming. This comprehensive guide provides all the essential information you need to make this special day unforgettable, from understanding the ceremony details to planning your celebration. We'll cover everything from ceremony dates and locations to accommodation options and post-graduation tips. Let's dive in!

Understanding the Fort Leonard Wood Graduation Process

Fort Leonard Wood hosts numerous graduations throughout the year, catering to various military occupational specialties (MOS). Knowing your graduate's specific MOS and unit is crucial for determining their exact graduation date and time. Unfortunately, there isn't a single, publicly accessible central calendar for all Fort Leonard Wood graduations. The best approach is to:

1. Contact Your Graduate Directly:

The most reliable source of information is your graduate themselves. They will receive official notification regarding their graduation date, time, and location from their unit.

2. Reach Out to the Graduate's Unit:

If direct contact with the graduate is challenging, contacting their unit directly is the next best option. You can usually find contact information on the Fort Leonard Wood website or through the trainee's initial contact information.

3. Check the Fort Leonard Wood Website:

The official Fort Leonard Wood website often posts news and announcements related to major events, including graduations. Regularly check their news section for updates. However, specific graduation details are usually handled at the unit level.

Planning Your Trip to Fort Leonard Wood for Graduation

Once you know the date, the next step is planning your trip. Fort Leonard Wood, Missouri, is a relatively remote location, so careful planning is essential.

1. Accommodation:

Securing accommodation well in advance is highly recommended, especially if you're travelling during peak graduation seasons. Hotels near the base often book up quickly. Consider exploring options in nearby towns like Waynesville and Rolla. Booking through major hotel chains or online travel agencies can secure you the best deals.

2. Transportation:

The nearest airport is in Springfield, Missouri (SGF), which requires a drive to Fort Leonard Wood. Consider renting a car for maximum flexibility, especially if you need to travel to different locations on the base.

3. What to Wear:

Graduation ceremonies are typically formal events. Business casual or semi-formal attire is appropriate for guests. Comfortable shoes are recommended, as you might be standing for an extended period. Remember to check the weather forecast and dress accordingly.

The Graduation Ceremony Itself

The ceremony itself is a proud and moving occasion. Expect a formal parade-ground setting with various military personnel participating. Photography and videography are generally permitted, though check with the base authorities for any specific regulations. Remember to be respectful of

the solemnity of the event and maintain appropriate decorum throughout the proceedings.

Post-Graduation Celebrations:

After the ceremony, many families organize celebratory meals and gatherings. Numerous restaurants and dining options are available near Fort Leonard Wood and in nearby towns. Consider making reservations in advance to secure your preferred dining spot.

Post-Graduation Tips for Graduates

Graduating from Fort Leonard Wood is a significant achievement. The next step involves navigating the transition to active duty. Here are some helpful tips for new soldiers:

Contact your permanent duty station: Familiarize yourself with your next assignment and make the necessary preparations.

Review your orders carefully: Understand your reporting dates, required documents, and any specific instructions.

Prepare for your next phase of training: Many MOSs require further specialized training after graduation from basic combat training.

Conclusion

Fort Leonard Wood graduation is a momentous event for both graduates and their families. By following the tips and information provided in this guide, you can ensure a smooth and memorable experience. Remember to stay organized, plan ahead, and most importantly, celebrate the hard work and dedication of your graduate. Congratulations again to all the graduating soldiers of 2023!

FAQs

1. Are there any restrictions on bringing children to the graduation ceremony? Generally, children are allowed, but it's advisable to contact the unit directly to confirm any specific guidelines.
2. Can I bring a drone to the graduation ceremony to film? Drone usage is likely restricted on the base. Check with the base authorities beforehand.
3. Where can I find a list of all the graduation dates for 2023? A centralized list isn't publicly

available. Contact your graduate's unit for the most accurate information.

4. Are there any specific items I shouldn't bring to the ceremony? Avoid bringing large bags or prohibited items as per base regulations.

5. What is the best way to contact the specific unit of my graduate? The graduate's initial contact information should provide the unit's contact details. You can also try contacting the Fort Leonard Wood main office for assistance in locating the correct unit.

fort leonard wood graduation 2023: Upon the Altar of Freedom Jill Smith, Terry Smith, Richard Salcido, 2023-10-02 Heart-gripping accounts from family, friends, and military brethren show that the battle seldom ends when veterans come home. The physical and psychological scars mar them for life, a permanent bane that they endure for our peace and safety. Such scenarios have occurred countless times throughout our country's history to defend the red, white, and blue. Remarkably, most would do it all over again if needed. Despite PTSD, one such veteran, Jeremy Smith, continues to deeply touch the lives of those around him. Upon the Altar of Freedom shares the soul-touching quest of Jeremy and his family as they endeavor to ensure that he lives the American dream for which he fought valiantly, despite his torments. Marvel as you read how they silently embrace suffering so that we can enjoy freedom and liberty.

fort leonard wood graduation 2023: *For the Boys* NCR Davis, 2023-09-30 The biography of a young nurse from Minnesota who joins the war effort behind her father's back. She finds herself holed up treating the critically wounded from the Battle of the Bulge. In December 1944, she blatantly defies discriminatory army rules to save the lives of her patients. A month after her 24th birthday, Lt. Mary Elizabeth Balster collapses among the rubble of a shelled supply room. Has the young nurse finally succumbed to the mounting emotional toll caused from months of caring for the sick and wounded just behind the front lines of General Patton's Third Army? On the night of November 30, 1944, holed up in the Heinrich Himmler Barracks in Morhange, France, Lt. Balster's evac receives a typical patient load (over 200 soldiers, including wounded enemy), but this time one of the admissions is a 19-year-old tanker she'd nursed back to health five months before in Normandy. The charge nurse on Surgical gently informs the lieutenant that the private is critical, admitted with two gunshot wounds and almost half his body consumed by burns. Rising determined to save him, Balster limps toward the shelled supply room determined to search for any blood plasma bottles still intact after Luftwaffe strafing. Recaptured from her mother's reminiscences and

letters home, N. C. R. Davis takes the reader through every heat-of-battle harrowing moment as Balster lived it, achieving a rare glimpse of one nurse's point of view during the latter part of the European conflict. The book mixes Lt. Balster's observations, memories, and dreams to re-tell the true story of a richly rebellious and intense woman trying to navigate her life and nurture her sanity while nursing the wounded and dying frontline soldiers of the Third Army. Her strong-willed, beguiling personality fosters the grit necessary for her success as a combat nurse, but these same characteristics cause two men to fall in love with her. And the personal cost of war comes to a heartrending conclusion, as she must choose one man over the other to save herself.

But when family secrets spill out and racism at school ramps up, she must decide what she believes in and take a stand. Liliana Cruz is a hitting a wall—or rather, walls. There's the wall her mom has put up ever since Liliana's dad left—again. There's the wall that delineates Liliana's diverse inner-city Boston neighborhood from Westburg, the wealthy—and white—suburban high school she's just been accepted into. And there's the wall Liliana creates within herself, because to survive at Westburg, she can't just lighten up, she has to whiten up. So what if she changes her name? So what if she changes the way she talks? So what if she's seeing her neighborhood in a different way? But then light is shed on some hard truths: It isn't that her father doesn't want to come home—he can't...and her whole family is in jeopardy. And when racial tensions at school reach a fever pitch, the walls that divide feel insurmountable. But a wall isn't always a barrier. It can be a foundation for something better. And Liliana must choose: Use this foundation as a platform to speak her truth, or risk crumbling under its weight.

fort leonard wood graduation 2023: *U.C.A.P.* Skip Van Rensalier, 2023-02-16 Paterson is the third largest city in the state of New Jersey. It is the home of Larry Doby (the first African American baseball player to play in the American League in 1947), the world-famous comedian Lou Costello, the Great Falls National Historic Park, the Huntoon-Van Rensalier underground railroad site, the Hinchliffe Stadium (where many teams from the old Negro Baseball League played, including the New York Black Yankees), and the first submarine, which was invented and manufactured by John Holland, a Paterson schoolteacher. But the lifeblood of Paterson are the ones who proudly call themselves Patersonians. These are the people who were born, raised, lived, worked, played, or raised their own families in Paterson. In *UCAP: Up Close and Paterson*, you will hear from a small sampling of current and former residents who comprise the ethnic, socioeconomic, cultural, political, and religious diversity that is Paterson, New Jersey. Through their personal stories, you will get a brief glimpse into the soul of the city dubbed the Silk City. And even with their contrasting and oftentimes very candid views of how different Paterson is now compared to when they grew up, there's no denying the love and pride they have for the city they call home, P-Town!

fort leonard wood graduation 2023: *Fifty Years from the Basement to the Second Floor*

Tom Colbert, 2023-10-06 In Fifty Years from the Basement to the Second Floor, Tom Colbert, former chief of justice of the Oklahoma Supreme Court, shares his extraordinary life story—a story of resilience, determination, and hope. From his great-great grandmother who, though born into slavery, lived to be over 100 years old to his great grandfather who fought to be enrolled as a member of Creek Tribal Nation to his grandfather who walked over a mile home after being shot in the chest, never giving up no matter how hard the journey was instilled into Tom at a very young age. Born on December 30, 1949, Tom was raised by his mother and grandparents in Sapulpa, Oklahoma, when segregation laws were in effect. In fact, a few days after Tom was born, Ada Lois Sipuel Fisher had just started her second semester as a law student at the University of Oklahoma Law School after fighting for three years to be admitted there, refusing to attend the makeshift “Black-only” law school set up in the basement of the State Capitol. Though racial segregation was deemed unconstitutional in 1954, integration was intentionally delayed in Tom’s town, and he didn’t attend an integrated school until the fall of 1965. Although some teachers at his high school were welcoming, many staff and students were not, and Tom and his friends experienced racism, bigotry, and hatred, despite being star athletes and diligent students. Though he grew up in poverty and a world entrenched in systemic racism as well as dealt with family tragedies, Tom beat impossible odds, proving the naysayers of his youth wrong. He not only worked hard and became an outstanding lawyer, but reached the pinnacle of judiciary—and became the first Black man in Oklahoma to do so. Just like Ada Lois Sipuel Fisher, Tom refused the “basement,” and that noble resistance led him all the way to the second floor of the Oklahoma State Capitol.

fort leonard wood graduation 2023: *Runnin' Redbirds* Eric Vickrey, 2023-11-21 The 1982 St. Louis Cardinals played an entertaining style of baseball built on speed and defense. The roster was constructed and piloted by Whitey Herzog, a baseball visionary who tailored his team for the AstroTurf and spacious dimensions of Busch Stadium. Herzog traded for closer Bruce Sutter, speedsters Lonnie Smith and Willie McGee, and defensive wizard Ozzie Smith, adding to a talented roster that included the likes of Bob Forsch, Keith Hernandez, and George Hendrick. The result was an exhilarating season filled with winning streaks, numerous obstacles, and one unforgettable steal of home. The Cardinals won the National League pennant despite hitting the fewest home runs in the major leagues, then overcame baseball's most powerful team--the Milwaukee Brewers--in the World Series. This exhaustive account chronicles the Cardinals from Herzog's rebuild to the final out of the Fall Classic. Hundreds of sources, including original interviews, were compiled to revisit a championship season and tell the backstories of an eclectic group of players who reached baseball's pinnacle.

fort leonard wood graduation 2023: *Breaking Point* Rebecca Schwartz Greene, 2023-01-03 This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II. *Breaking Point* is the first in-depth history of American psychiatry in World War II. Drawn from unpublished primary documents, oral histories, and the author’s personal interviews and correspondence over years with key psychiatric and military policymakers, it begins with Franklin Roosevelt’s endorsement of a universal Selective Service psychiatric examination followed

by Army and Navy pre- and post-induction examinations. Ultimately, 2.5 million men and women were rejected or discharged from military service on neuropsychiatric grounds. Never before or since has the United States engaged in such a program. In designing Selective Service Medical Circular No. 1, psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter. While many American and European psychiatrists questioned this belief, and huge numbers of American psychiatric casualties soon raised questions about screening's validity, psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else. Soon, families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs, and Blacks and Native Americans, among others, complained of bias. A frustrated General George S. Patton famously slapped two "malingerers" neuropsychiatric patients in Sicily (a sentiment shared by Marshall and Eisenhower, though they favored a tamer style). Yet psychiatric rejections, evacuations, and discharges mounted. While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943, this was the exception. But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself, not "predisposition," precipitated breakdown, leading military psychiatrists switched their emphasis from screening to prevention and treatment. But this switch was too little too late and slowed by a year-long series of Inspector General investigations even while numbers of psychiatric casualties soared. Ironically, despite and even partly because of psychiatrists' wartime performance, plus the emotional toll of war, postwar America soon witnessed a dramatic growth in numbers, popularity, and influence of the profession, culminating in the National Mental Health Act (1946). But veterans with "PTSD," not recognized until 1980, were largely neglected.

Thank you! *Letters to Boot Camp* provides the reader with a heart wrenching and awe inspiring look into the lives of a mother and her son as he made his way through Boot Camp on Parris Island. - Once they're shipped out to Boot Camp, the only things that those of us left at home can really do for them is to write and pray. And if you're lucky, smuggle in the occasional treat. (I did.) It wasn't easy, but I wrote him every day, and he wrote me as often as he could. Inside these pages you'll find our personal story, our personal letters, and a good deal of information you may find useful. I like to think of Parris Island as a place of miraculous change and growth. Yeah, change isn't easy, and growing often hurts, but the end result is worth every bit of it. - - On November 7, 2011, in a hotel lobby, I smiled and gave my son one last big hug. I told him I loved him and how proud I was of him. The last thing I said was, You go kick some ass Baby, and I'll be there waiting when you're done. He had to go, so with that I turned around and walked out. Yes, I did look back, and yes, he did grin and wave. From there he would go to MEPS one last time and then get on a bus with all his new best buddies to Parris Island where they would be made into Marines. -

fort leonard wood graduation 2023: *United States Code* United States, 2013 *The United States Code* is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority

this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.

fort leonard wood graduation 2023: *Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary* Truth and Reconciliation Commission of Canada, 2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

fort leonard wood graduation 2023: Doc Holliday Gary L. Roberts, 2011-05-12 Acclaim for Doc Holliday Splendid . . . not only the most readable yet definitive study of Holliday yet published, it is one of the best biographies of nineteenth-century Western 'good-bad men' to appear in the last twenty years. It was so vivid and gripping that I read it twice. --Howard R. Lamar, Sterling Professor Emeritus of History, Yale University, and author of The New Encyclopedia of the American West The history of the American West is full of figures who have lived on as romanticized legends. They deserve serious study simply because they have continued to grip the public imagination. Such was Doc Holliday, and Gary Roberts has produced a model for looking at both the life and the legend of these frontier immortals. --Robert M. Utley, author of The Lance and the Shield: The Life and Times of Sitting Bull Doc Holliday emerges from the shadows for the first time in this important work of Western biography. Gary L. Roberts has put flesh and soul to the man who has long been one of the most mysterious figures of frontier history. This is both an important work and a wonderful read. --Casey Tefertiller, author of Wyatt Earp: The Life Behind the Legend Gary Roberts is one of a foremost class of writers who has created a real literature and authentic history of the so-called Western. His exhaustively researched and beautifully written Doc Holliday: The Life and Legend reveals a pathetically ill and tortured figure, but one of such intense loyalty to Wyatt Earp that it brought him limping to the O.K. Corral and into the glare of history. --Jack Burrows, author of John Ringo: The Gunfighter Who Never Was Gary L. Roberts manifested an interest in Doc Holliday at a very early age, and he has devoted these past thirty-odd years to serious and detailed research in the development and writing of Doc Holliday: The Life and Legend. The world knows Holliday as Doc

Holliday. Family members knew him as John. Somewhere in between the two lies the real John Henry Holliday. Roberts reflects this concept in his writing. This book should be of interest to Holliday devotees as well as newly found readers. --Susan McKey Thomas, cousin of Doc Holliday and coauthor of *In Search of the Hollidays*

fort leonard wood graduation 2023: A History of Army Aviation 1950-1962 Richard P. Weinert, Susan Canedy, Army Training & Doctrine Command, 2011 U.S. Army aviation expanded dramatically in both size and breadth of activities after its inception in 1942, but much of its post-World War II history, particularly after the establishment of the Air Force as an independent service by the national Security Act of 1947, has been relatively neglected. Despite a certain amount of jockeying for position by both services, particularly in the early years after their separation, the Army was able to carve out a clear transport and operational combat role for its own air arm. *A History of Army Aviation - 1950-1962* examines the development of the Army's air wing, especially for air support of ground troops, both in terms of organization and in relation to the ongoing friction with the Air Force. After describing the rapid expansion of purely Army air power after 1950 and the accompanying expansion of aviation training, the book delves into the reorganization of aviation activities within a Directorate of Army Aviation. It also provides a valuable account of the successful development of aircraft armament, perhaps the most significant advance of this period. In particular, intensive experimentation at the Army Aviation School led to several practical weapons systems and helped to prove that weapons could be fired from rotary aircraft. This arming of the helicopter was to have a profound effect on both Army organization and combat doctrine, culminating in official approval of the armed helicopter by the Department of the Army in 1960. *A History of Army Aviation - 1950-1962* also explores the development of new aircraft between 1955 and 1962, including the UH-1 medical evacuation, transport, and gunship helicopter and the HC-1 cargo copter. In addition, the book discusses the Berlin Crisis of 1961 as an impetus for immediate and unexpected expansion of army aviation, quickly followed by the beginnings of intervention in Vietnam by the end of 1962.

fort leonard wood graduation 2023: Messy Roots: A Graphic Memoir of a Wuhanese American

Laura Gao, 2022-03-08 "Messy Roots is a laugh-out-loud, heartfelt, and deeply engaging story of their journey to find themselves—as an American, as the daughter of Chinese immigrants, as a queer person, and as a Wuhanese American in the middle of a pandemic."—Malaka Gharib, author of *I Was Their American Dream* After spending her early years in Wuhan, China, riding water buffalos and devouring stinky tofu, Laura immigrates to Texas, where her hometown is as foreign as Mars—at least until 2020, when COVID-19 makes Wuhan a household name. In *Messy Roots*, Laura illustrates her coming-of-age as the girl who simply wants to make the basketball team, escape Chinese school, and figure out why girls make her heart flutter. Insightful, original, and hilarious, toggling seamlessly between past and present, China and America, Gao's debut is a tour de force of graphic storytelling.

fort leonard wood graduation 2023: The Warbird Tara Copp, 2019-03-15 AS A JOURNALIST

RIDING INTO IRAQ IN 2003 WITH FOUR AIRMEN FROM TEXAS Tara Copp had seen her naive ideals about war reduced to the violent realities of modern combat. From an ambushed convoy speeding through the wrong neighborhood under heavy fire, to an airman who survived a mortar hit and his recovery at Walter Reed, Tara told their stories even as she struggled to understand her own. Solace lay in her late grandfather's memoirs. Col. Richard C. Dick Harris had survived 63 bombing missions in WWII piloting a B-24 Liberator heavy bomber against some of the hardest targets Allied crews ever faced. Some- where in his memoirs would be a story to help her frame her own experience. But his memories were vague. No dates. No squadrons. But lots of tales of sex, booze, antics and women. Lots of women. Tara blushed. She had a tale or two of her own. This wasn't you, she thought. Maybe in your final years you were too sick to remember? A thought took hold: to finish his war story, for both of them. *The Warbird* is their story, spanning two wars and three heroes - Tara's grandfather Dick Harris, his brother, Easy Company Staff Sgt. Terrence Salty Harris and Senior Airman Brian Kolfage - ordinary men living and fighting in extraordinary circumstances. *The Warbird* is Rose Leigh Rosie The Riveter Abbott turning raw aluminum into B-24 Liberators, and the men of the 448th and 98th Bomb Groups flying those machines into a maelstrom of fire, smoke, sacrifice and death. *The Warbird* is an unflinching look at the confusion, boredom, terror and sacrifice of war. It uncovers the true stories of two generations of family and fighter alike, revealing why so many servicemembers never talk about their wars, and how families find resolution in their loved ones' unfinished war stories.

fort leonard wood graduation 2023: A Historical Review and Analysis of Army Physical Readiness Training and Assessment Whitfield East, 2013-12 The Drillmaster of Valley

Forge-Baron Von Steuben-correctly noted in his Blue Book how physical conditioning and health (which he found woefully missing when he joined Washington's camp) would always be directly linked to individual and unit discipline, courage in the fight, and victory on the battlefield. That remains true today. Even an amateur historian, choosing any study on the performance of units in combat, quickly discovers how the levels of conditioning and physical performance of Soldiers is directly proportional to success or failure in the field. In this monograph, Dr. Whitfield Chip East provides a pragmatic history of physical readiness training in our Army. He tells us we initially mirrored the professional Armies of Europe as they prepared their forces for war on the continent. Then he introduces us to some master trainers, and shows us how they initiated an American brand of physical conditioning when our forces were found lacking in the early wars of the last century. Finally, he shows us how we have and must incorporate science (even when there exists considerable debate!) to contribute to what we do-and how we do it-in shaping today's Army. Dr. East provides the history, the analysis, and the pragmatism, and all of it is geared to understanding how our Army has and must train Soldiers for the physical demands of combat. Our culture is becoming increasingly "unfit, due to poor nutrition, a lack of adequate and formal exercise, and too much technology. Still, the Soldiers who come to our Army from our society will be asked to fight in increasingly complex and demanding conflicts, and they must be prepared through new, unique, and scientifically based techniques. So while Dr. East's monograph is a fascinating history, it is also a

required call for all leaders to better understand the science and the art of physical preparation for the battlefield. It was and is important for us to get this area of training right, because getting it right means a better chance for success in combat.

fort leonard wood graduation 2023: The Noncommissioned Officer and Petty Officer
Department of Defense, National Defense University Press, 2020-02-10 The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces. Introduction The Backbone of the Armed Forces To be a member of the United States Armed Forces--to wear the uniform of the Nation and the stripes, chevrons, or anchors of the military Services--is to continue a legacy of service, honor, and patriotism that transcends generations. Answering the call to serve is to join the long line of selfless patriots who make up the Profession of Arms. This profession does not belong solely to the United States. It stretches across borders and time to encompass a culture of service, expertise, and, in most cases, patriotism. Today, the Nation's young men and women voluntarily take an oath to support and defend the Constitution of the United States and fall into formation with other proud and determined individuals who have answered the call to defend freedom. This splendid legacy, forged in crisis and enriched during times of peace, is deeply rooted in a time-tested warrior ethos. It is inspired by the notion of contributing to something larger, deeper, and more profound than one's own self. Notice: This is a printed Paperback version of the The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces. Full version, All Chapters included. This publication is available (Electronic version) in the official website of the National Defense University (NDU). This document is properly formatted and printed as a perfect sized copy 6x9.

fort leonard wood graduation 2023: Lessons from Thor Kimberly DeFiori, 2021-07-29
Lessons from Thor is a heartfelt story that cleverly weaves Thor's take on life in a fun and meaningful way. You're sure to fall in love with Thor and learn from both Kim and him as the story progresses. This book will make you cry, laugh, and motivate you to live life to its fullest. DeFiori for Lessons from Thor. In her first book, DeFiori offers important lessons her service dog, Thor, has taught her that readers from all walks of life can apply to their lives. DeFiori, currently pursuing her MBA through Cornell University's executive MBA program, thoughtfully recounts her traumatic journey while serving in the U.S. Army, challenging readers to view life differently for greater happiness and fulfillment. Thor, DeFiori's often silly yet very focused Labrador Retriever, inspired her to write this unforgettable story and helpful guide for readers. In Lessons from Thor, retired Army Captain DeFiori cleverly weaves Thor's take on life throughout her story. Some of the topics she focuses on include: taking care of yourself; trying new things; resting and recharging; finding and enjoying every moment; leaning on others when struggling; appreciating our past; and, being a good listener to people who are hurting. As an example, she shares that When Thor goes to the beach, he doesn't watch the waves, he crashes into them. Life is about trying things, not just watching from the sidelines. DeFiori began her military career after graduating from West Point in 2008 as a military police officer. She deployed shortly after to Afghanistan for a year, serving with military police and infantry companies. She was one of the first women to work alongside Afghan police day and night conducting raids with special operations units. She went on to serve as an aide-de-camp at the Pentagon. Kim's debut book is so heartfelt and encouraging, said Chris Schafer, CEO at Tactical 16. She talks about her difficult journey and close relationship with Thor, her precocious furry friend, in a fun and meaningful way. You're sure to fall in love with Thor and learn from both Kim and him as the story progresses. This book is so well done and motivational! DeFiori calls Maryland home and recently started Badges United Foundation, a non-profit, to help first responders who have PTSD. #Book #Dog #Story #Beach
