La County Criminal Record History Uber

LA County Criminal Record History & Uber: A Driver's Guide

Introduction:

Are you considering driving for Uber in Los Angeles County? Understanding the implications of your criminal history is crucial. This comprehensive guide delves into how your LA County criminal record history affects your eligibility to become an Uber driver. We'll explore the process of checking your record, understanding what Uber considers disqualifying offenses, and navigating the application process successfully. We'll also address common misconceptions and offer actionable advice to help you determine your eligibility.

H2: Understanding Uber's Background Check Process in LA County

Uber conducts thorough background checks on all prospective drivers, scrutinizing LA County criminal records and more. This process goes beyond a simple name search; it involves a multi-faceted investigation encompassing:

Criminal History: This includes felony and misdemeanor convictions, arrests, and pending charges from LA County courts and potentially other jurisdictions.
Driving Record: Your driving history is meticulously reviewed, including accidents, traffic violations, and suspensions. Points accumulation in LA County will be factored in.
Motor Vehicle Reports (MVRs): Uber pulls your MVR to assess your driving competency and safety record.

National Criminal Database Checks: This expands the scope beyond LA County to encompass any criminal activity recorded nationally.

H2: What Types of Criminal Records Might Disqualify You?

Uber's standards for driver eligibility are stringent. While not all criminal offenses will automatically disqualify you, certain crimes pose a higher risk of rejection. These typically include:

Violent Crimes: Such as assault, battery, robbery, or homicide.
Sex Offenses: Convictions for any sex-related crime are almost universally disqualifying.
Drug-Related Offenses: Depending on the severity and recency of the offense, drug-related convictions can be a significant barrier.
DUI/DWI: Driving under the influence convictions significantly impact your eligibility. The number of offenses and the time elapsed since the conviction are key factors.
Fraud and Theft: Crimes involving dishonesty and financial misconduct can also result in disqualification.

H3: The Importance of Timing and Severity

The age of the conviction is a crucial factor. Older convictions, especially minor offenses, might not automatically disqualify you. However, recent convictions, particularly for serious crimes, significantly decrease your chances of approval. The severity of the offense also plays a vital role; a misdemeanor shoplifting charge is viewed differently than a felony assault.

H2: How to Obtain Your LA County Criminal Record History

To understand your eligibility, you need to obtain your criminal record. You can do this through the following methods:

LA Superior Court Website: You can often access basic information online, though a complete record may require a fee-based request.
California Department of Justice (DOJ): The DOJ maintains a statewide criminal record database.
Third-Party Background Check Services: Numerous companies offer background check services, providing a comprehensive report including LA County records.

H2: Navigating the Uber Application Process with a Criminal Record

If you have a criminal record, be completely transparent and honest during the application process. Withholding information could lead to immediate disqualification. Consider:

Reviewing the Application Carefully: Understand all the questions and provide accurate, truthful answers.
Explaining Circumstances: If you believe your record shouldn't disqualify you, provide context and supporting documentation during the application process. (Note: Uber is not obligated to accept this explanation.)
Seeking Legal Counsel: If you have concerns about your eligibility, consulting a legal professional is highly recommended.

H2: Alternatives to Driving for Uber with a Criminal Record

If your criminal record prevents you from driving for Uber, consider exploring alternative income streams, such as:

Delivery Services: Companies like DoorDash, Grubhub, or Instacart may have less stringent background check requirements.
Gig Work: Explore freelance opportunities online or within your community.
Traditional Employment: Focus your job search on roles that don't require a driving record check.

Conclusion:

Driving for Uber in LA County requires a thorough understanding of their background check process. Your criminal record significantly influences your eligibility. Honesty, accurate self-assessment, and potentially legal counsel are crucial steps in navigating this process successfully. Remember, the information provided here is for guidance; it's not a substitute for legal advice. Always consult with relevant professionals to get personalized advice based on your specific circumstances.

FAQs:

1. Can I appeal Uber's decision if I'm rejected due to my criminal record? Uber's decisions are generally final, but exploring legal options with an attorney might be possible in very specific circumstances.

2. How long does the Uber background check take? The duration varies but typically ranges from a few days to several weeks.

3. Does Uber check for juvenile records? While the specifics vary by state and circumstances, Uber generally focuses on adult criminal records. However, very serious juvenile offenses might still be relevant.

4. If I have a misdemeanor conviction from 10 years ago, will I be disqualified? It depends on the specific offense. Older misdemeanors are less likely to disqualify you than recent or serious ones.

5. What if I have an expunged record? While expungement removes a record from public view in many cases, it might still be accessible to Uber's background check services, and its relevance to your eligibility is still dependent on Uber's criteria.

la county criminal record history uber: *LAbyrinth* Randall Sullivan, 2007-12-01 A journalist's story of corruption in the LAPD and hip-hop's most infamous murders—"the most thorough examination of these much-publicized events" (Renée Graham, The Boston Globe). Acclaimed journalist Randall Sullivan follows Russell Poole, a highly decorated LAPD detective who, in 1997, was called to investigate a controversial cop-on-cop shooting, eventually to discover that the officer killed was tied to Marion "Suge" Knight's notorious gangsta rap label, Death Row Records. During his investigation, Poole came to realize that a growing cadre of outlaw officers were allied not only with Death Row, but with the murderous Bloods street gang. And incredibly, Poole began to uncover evidence that at least some of these "gangsta cops" may have been involved in the murders of rap

superstars Notorious B.I.G. and Tupac Shakur. Igniting a firestorm of controversy in the music industry and the Los Angeles media, the release of LAbyrinth helped to prompt two lawsuits against the LAPD (one brought by the widow and mother of Notorious B.I.G., the other brought by Poole himself) that may finally bring this story completely out of the shadows.

la county criminal record history uber: *A Global History of Execution and the Criminal Corpse* Richard Ward, 2015-09-27 Through studies of beheaded Irish traitors, smugglers hung in chains on the English coast, suicides subjected to the surgeon's knife in Dresden and the burial of executed Nazi war criminals, this volume provides a fresh perspective on the history of capital punishment. The chapters 'Introduction: A Global History of Execution and the Criminal Corpse' and 'The Gibbet in the Landscape: Locating the Criminal Corpse in Mid-Eighteenth-Century England' are open access under a CC BY 4.0 license.

la county criminal record history uber: The Rideshare Guide Harry Campbell, 2018-04-03 An industry leader's guide to making Lyft and Uber work for you. In less than five years, ridesharing has grown from nonexistence into a billion dollar industry. Uber now has two million drivers in the United States, Lyft has seven hundred thousand, and both show no signs of slowing down. Despite the large number of drivers, Uber and Lyft provide little in the way of help for new drivers, who complain that there is a lack of guidance when starting out. Harry Campbell, founder and director of The Rideshare Guy blog and podcast and a driver himself, can help. The Rideshare Guide offers a comprehensive and engaging handbook for current and prospective rideshare drivers. Learn how to: Decide between Uber and Lyft Maximize passengers and profits Maintain a five-star rating Keep safe and interact appropriately with passengers Navigate legal matters and tax codes Campbell explains these and much more, also including funny, shocking, and bizarre tales from the road. Whether you are thinking about becoming a driver or a veteran wondering about UberPool and tax help, The Rideshare Guide by the Rideshare Guy has the answers.

la county criminal record history uber: Global Perspectives on Legal Challenges Posed by Ridesharing Companies Zeynep Ayata, Işık Önay, 2020-09-28 This book examines how regulators and policymakers from nine different countries have dealt with Uber, and initiates a legal dialogue between different jurisdictions that could potentially pave the way to a harmonized approach in regulating Uber. The case studies, conducted in Brazil, Germany, Italy, Mexico, Spain, South Africa, Turkey, the UK and the US reveal the case law and regulatory responses that have been adopted in various areas of law. Legal issues relevant to Uber include market regulation, labor law, civil liability, consumer protection, unfair competition and antitrust law. The book thus compares and contrasts the regulatory policy implications of the disruptive innovation created by Uber in the area of transport services. The book starts with a conceptual overview of the legal challenges posed by Uber and concludes with comparative findings based on the individual case studies. In addition to introducing academics and legal practitioners to the theoretical and practical legal problems they may encounter in connection with Uber, the book will especially appeal to policymakers, who can benefit from and compare the experiences of other jurisdictions.

la county criminal record history uber: Rise of the Warrior Cop Radley Balko, 2021-06-01 This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including analysis of the Ferguson protests, the Obama and Trump administrations, and the George Floyd protests. The last days of colonialism taught America's revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America's cops have increasingly come to resemble ground troops. The consequences have been dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies.

In Rise of the Warrior Cop, Balko shows how politicians' ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America's earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society.

la county criminal record history uber: The Reputation Economy Michael Fertik, David C. Thompson, 2015-01-20 Reputation is power. Your reputation defines how people see you and what they will do for you. It determines whether your bank will lend you money to buy a house or car; whether your landlord will accept you as a tenant; which employers will hire you and how much they will pay you. It can even affect your marriage prospects. And in the coming Reputation Economy, it's getting more powerful than ever. Because today, thanks to rapid advances in digital technology, anyone access huge troves of information about you – your buying habits, your finances, your professional and personal networks, and even your physical whereabouts - at any time. In a world where technology allows companies and individuals alike to not only gather all this data but also aggregate it and analyze it with frightening speed, accuracy, and sophistication, our digital reputations are fast becoming our most valuable currency. Here, Michael Fertik, CEO of Reputation.com and one of Silicon Valley's leading futurists will draw on the insider tools, insights, research, and secrets that has make Reputation.com the leading reputation management firm, to show how to capitalize on the trends the Reputation Economy will trigger to improve your professional, financial, and even social prospects. You will learn: · What keywords to put in your resume, performance review, and LinkedIn profile to come up at the top of potential employers' search results. · How to curate your on and offline activity in way that will reduce the premiums calculated by insurers, lenders, and investors. · Tricks that will get you express or VIP treatment at banks, hotels, and other exclusive special offers. · Ways to improve your review or rating on sharing or peer review sites like Yelp or Angie's List, or your standing – as buyer or seller - on sharing economy sites like AirBnB or Uber · How to create false tails and digital smokescreens to hide the negative information that's out there With a good digital footprint, the world is your oyster. This book will show you how to control, curate, and optimize your digital reputation to become "rich" in a world where your reputation is as valuable as the cash in your wallet.

la county criminal record history uber: <u>Blood Royal</u> Eric Jager, 2014-02-25 A riveting true story of murder and detection in 15th-century Paris, by one of the most brilliant medievalists of his generation. On a chilly November night in 1407, Louis of Orleans was murdered by a band of masked men. The crime stunned and paralyzed France since Louis had often ruled in place of his brother King Charles, who had gone mad. As panic seized Paris, an investigation began. In charge was the Provost of Paris, Guillaume de Tignonville, the city's chief law enforcement officer -- and one of history's first detectives. As de Tignonville began to investigate, he realized that his hunt for the truth was much more dangerous than he ever could have imagined. A rich portrait of a distant world, Blood Royal is a gripping story of conspiracy, crime and an increasingly desperate hunt for the truth. And in Guillaume de Tignonville, we have an unforgettable detective for the ages, a classic gumshoe for a cobblestoned era.

la county criminal record history uber: <u>Super Pumped: The Battle for Uber</u> Mike Isaac, 2019-09-03 Now a SHOWTIME® original series starring Emmy winners Joseph Gordon-Levitt and Kyle Chandler and Academy Award nominee Uma Thurman. Now streaming – Only on SHOWTIME. Named one of the best books of the year by NPR, Fortune, Bloomberg, Sunday Times A New York Times Book Review Editor's Choice "If you want to understand modern-day Silicon Valley, you need to read this book." —John Carreyrou, New York Times best-selling author of Bad Blood Hailed as the definitive book on Uber and Silicon Valley, Super Pumped is an epic story of ambition and deception, obscene wealth, and bad behavior that explores how blistering technological and financial innovation culminated in one of the most catastrophic twelve-month periods in American corporate history. Backed by billions in venture capital dollars and led by a brash and ambitious founder, Uber promised to revolutionize the way we move people and goods through the world. What followed would become a corporate cautionary tale about the perils of startup culture and a vivid example of how blind worship of startup founders can go wildly wrong.

la county criminal record history uber: <u>Automating Inequality</u> Virginia Eubanks, 2018-01-23 WINNER: The 2019 Lillian Smith Book Award, 2018 McGannon Center Book Prize, and shortlisted for the Goddard Riverside Stephan Russo Book Prize for Social Justice Astra Taylor, author of The People's Platform: The single most important book about technology you will read this year. Dorothy Roberts, author of Killing the Black Body: A must-read. A powerful investigative look at data-based discrimination?and how technology affects civil and human rights and economic equity The State of Indiana denies one million applications for healthcare, foodstamps and cash benefits in three years—because a new computer system interprets any mistake as "failure to cooperate." In Los Angeles, an algorithm calculates the comparative vulnerability of tens of thousands of homeless people in order to prioritize them for an inadequate pool of housing resources. In Pittsburgh, a child welfare agency uses a statistical model to try to predict which children might be future victims of abuse or neglect. Since the dawn of the digital age, decision-making in finance, employment, politics, health and human services has undergone revolutionary change. Today, automated systems—rather than humans—control which neighborhoods get policed, which families attain needed resources, and who is investigated for fraud. While we all live under this new regime of data, the most invasive and punitive systems are aimed at the poor. In Automating Inequality, Virginia Eubanks systematically investigates the impacts of data mining, policy algorithms, and predictive risk models on poor and working-class people in America. The book is full of heart-wrenching and eye-opening stories, from a woman in Indiana whose benefits are literally cut off as she lays dying to a family in Pennsylvania in daily fear of losing their daughter because they fit a certain statistical profile. The U.S. has always used its most cutting-edge science and technology to contain, investigate, discipline and punish the destitute. Like the county poorhouse and scientific charity before them, digital tracking and automated decision-making hide poverty from the middle-class public and give the nation the ethical distance it needs to make inhumane choices: which families get food and which starve, who has housing and who remains homeless, and which families are

broken up by the state. In the process, they weaken democracy and betray our most cherished national values. This deeply researched and passionate book could not be more timely.

la county criminal record history uber: *Eavesdropping on Hell* Robert J. Hanyok, 2005-01-01 This official government publication investigates the impact of the Holocaust on the Western powers' intelligence-gathering community. It explains the archival organization of wartime records accumulated by the U.S. Army's Signal Intelligence Service and Britain's Government Code and Cypher School. It also summarizes Holocaust-related information intercepted during the war years.

la county criminal record history uber: Palo Alto Malcolm Harris, 2023-02-14 Named One of the Year's Best Books by VULTURE • THE NEW REPUBLIC • DAZED • WIRED • BLOOMBERG • ESQUIRE • SALON • THE NEXT BIG IDEA CLUB The history of Silicon Valley, from railroads to microchips, is an "extraordinary" story of disruption and destruction, told for the first time in this comprehensive, jaw-dropping narrative (Greg Grandin, Pulitzer Prize-winning author of The End of the Myth). Palo Alto's weather is temperate, its people are educated and enterprising, its corporations are spiritually and materially ambitious and demonstrably world-changing. Palo Alto is also a haunted toxic waste dump built on stolen Indian burial grounds, and an integral part of the capitalist world system. In PALO ALTO, the first comprehensive, global history of Silicon Valley, Malcolm Harris examines how and why Northern California evolved in the particular, consequential way it did, tracing the ideologies, technologies, and policies that have been engineered there over the course of 150 years of Anglo settler colonialism, from IQ tests to the tragedy of the commons, racial genetics, and broken windows theory. The Internet and computers, too. It's a story about how a small American suburb became a powerful engine for economic growth and war, and how it came to lead the world into a surprisingly disastrous 21st century. PALO ALTO is an urgent and visionary history of the way we live now, one that ends with a clear-eyed, radical proposition for how we might begin to change course.

la county criminal record history uber: Review of the Federal Bureau of Prisons' Monitoring of Contract Prisons Michael E. Horowitz, 2016-09-15 The Federal Bureau of Prisons (BOP), the component of the Department of Justice (DOJ) responsible for incarcerating all federal defendants sentenced to prison, was operating at 20% over its rated capacity as of December 2015. To alleviate overcrowding, in 1997 the BOP had begun contracting with privately operated institutions (contract prisons), to confine federal inmates who are primarily low security, criminal alien adult males with 90 months or less remaining to serve on their sentences. This report examined how the BOP monitors these facilities and assessed whether contractor performance meets certain inmate safety and security requirements. It found that, in most key areas, contract prisons incurred more safety and security incidents per capita than comparable BOP institutions and that the BOP needs to improve how it monitors contract prisons. Figures. This is a print on demand report.

la county criminal record history uber: *LSD, My Problem Child* Albert Hofmann, 2017-09-27 This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann, Ph.D. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. In LSD: My Problem Child, we follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experiences may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the

mystery of the divine, in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. More than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.

la county criminal record history uber: Criminal Minds Jeff Mariotte, 2010-08-03 The authorized tie-in to the popular TV show Criminal Minds Featuring stunning photos from the CBS series, Criminal Minds: Sociopaths, Serial Killers, and Other Deviants will give you new terrifying and fascinating insights into the mind of a criminal. Most episodes of CBS's Criminal Minds series feature a briefing where the profiling team defines the type of criminal they are looking for by examining behavior patterns that were established in actual criminal cases. Now author Jeff Mariotte takes us deeper into the BAU process by revealing the evil behind some of the most heinous murderers, sexual predators, and psychopaths in history. In this authorized companion to the hit TV series, you'll learn how real-life criminals committed their unspeakable crimes and follow the investigators who finally tracked them down. Mariotte explains why and how profilers organize major offenders into types and why each of these perpetrators falls into a particular category. You'll get the stories behind: Solo serial killers, such as David Berkowitz, Zodiac, and Henry Lee Lucas Sexual predators who preyed on women and girls, such as Dennis Rader and Gary Ridgway, and those who preyed on men and boys, such as John Wayne Gacy Killers with famous victims, such as John Hinckley, Robert John Bardo, and Mark David Chapman Cannibals and vampirists, such as Jeffrey Dahmer Traveling killers, such as Ted Bundy Female killers, such as Aileen Wuornos Family annihilators, such as John List, Mark Barton, and the Menendez brothers And many more

la county criminal record history uber: *Dark Alliance* Gary Webb, 2011-01-04 Major Motion Picture based on Dark Alliance and starring Jeremy Renner, Kill the Messenger, to be be released in Fall 2014 In August 1996, Pulitzer Prize-winning journalist Gary Webb stunned the world with a series of articles in the San Jose Mercury News reporting the results of his year-long investigation into the roots of the crack cocaine epidemic in America, specifically in Los Angeles. The series, titled "Dark Alliance," revealed that for the better part of a decade, a Bay Area drug ring sold tons of cocaine to Los Angeles street gangs and funneled millions in drug profits to the CIA-backed Nicaraguan Contras. Gary Webb pushed his investigation even further in his book, Dark Alliance: The CIA, The Contras, and the Crack Cocaine Explosion. Drawing from then newly declassified documents, undercover DEA audio and videotapes that had never been publicly released, federal court testimony, and interviews, Webb demonstrates how our government knowingly allowed massive amounts of drugs and money to change hands at the expense of our communities. Webb's own stranger-than-fiction experience is also woven into the book. His excoriation by the media—not because of any wrongdoing on his part, but by an insidious process of innuendo and suggestion that in effect blamed Webb for the implications of the story—had been all but predicted. Webb was warned off doing a CIA expose by a former Associated Press journalist who lost his job when, years before, he had stumbled onto the germ of the "Dark Alliance" story. And though Internal investigations by both the CIA and the Justice Department eventually vindicated Webb, he had by then been pushed out of the Mercury News and gone to work for the California State Legislature Task Force on Government Oversight. He died in 2004.

la county criminal record history uber: Empire of Pain Patrick Radden Keefe, 2021-04-13 NEW YORK TIMES BESTSELLER • A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose

fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of Say Nothing. A real-life version of the HBO series Succession with a lethal sting in its tail…a masterful work of narrative reportage." – Laura Miller, Slate The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated use of money to burnish reputations and crush the less powerful. The Sackler name has adorned the walls of many storied institutions—Harvard, the Metropolitan Museum of Art, Oxford, the Louvre. They are one of the richest families in the world, but the source of the family fortune was vague—until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis. Empire of Pain is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. It follows the family's early success with Valium to the much more potent OxyContin, marketed with a ruthless technique of co-opting doctors, influencing the FDA, downplaying the drug's addictiveness. Empire of Pain chronicles the multiple investigations of the Sacklers and their company, and the scorched-earth legal tactics that the family has used to evade accountability. A masterpiece of narrative reporting, Empire of Pain is a ferociously compelling portrait of America's second Gilded Age, a study of impunity among the super-elite and a relentless investigation of the naked greed that built one of the world's great fortunes.

la county criminal record history uber: Surveillance Valley Yasha Levine, 2018-02-06 The internet is the most effective weapon the government has ever built. In this fascinating book, investigative reporter Yasha Levine uncovers the secret origins of the internet, tracing it back to a Pentagon counterinsurgency surveillance project. A visionary intelligence officer, William Godel, realized that the key to winning the war in Vietnam was not outgunning the enemy, but using new information technology to understand their motives and anticipate their movements. This idea -- using computers to spy on people and groups perceived as a threat, both at home and abroad -- drove ARPA to develop the internet in the 1960s, and continues to be at the heart of the modern internet we all know and use today. As Levine shows, surveillance wasn't something that suddenly appeared on the internet; it was woven into the fabric of the technology. But this isn't just a story about the NSA or other domestic programs run by the government. As the book spins forward in time, Levine examines the private surveillance business that powers tech-industry giants like Google, Facebook, and Amazon, revealing how these companies spy on their users for profit, all while doing double duty as military and intelligence contractors. Levine shows that the military and Silicon Valley are effectively inseparable: a military-digital complex that permeates everything connected to the internet, even coopting and weaponizing the antigovernment privacy movement that sprang up in the wake of Edward Snowden. With deep research, skilled storytelling, and provocative arguments, Surveillance Valley will change the way you think about the news -- and the device on which you read it.
