luz maria briseno: *Leaving Tabasco* Carmen Boullosa, 2007-12-01 A young woman encounters strange events in her Mexican hometown in this novel by an author who "immerses us...in her wickedly funny and imaginative world" (Latina). Leaving Tabasco tells of the coming of age of Delmira Ulloa, raised in an all-female home in Agustini, in the Mexican province of Tabasco. But as Delmira becomes a woman, she will set out on a search for her missing father, and must make a choice that could mean leaving her home forever, in a tale filled with both depth and delightful mystery that poses questions about just how real the real world is. "To flee Agustini is to leave not just a town but the viscerally primal dreamscape it represents."—The New York Times Book Review "Vibrant...Each chapter is an adventure."—The Boston Globe "We happily share with [Delmira] her life, including the infinitely charming town she inhabits [and] her grandmother's fantastic imagination."—The Washington Post Book World

luz maria briseno: *Let's Talk About Your Wall* Carmen Boullosa, Alberto Quintero, 2020-10-13 Major writers from Mexico weigh in on U.S. immigration policy, from harrowing migrant journeys to immigrant detention to the life beyond the wall Despite the extensive coverage in the U.S. media of the southern border and Donald Trump's proposed wall, most English speakers have had little access to the multitude of perspectives from Mexico on the ongoing crisis. Celebrated novelist Carmen Boullosa (author of *Texas and Before*) and Alberto Quintero redress this imbalance with this collection of essays—translated into English for the first time—drawing on writing by journalists, novelists, and documentary-makers who are Mexican or based in Mexico. Contributors include the award-winning author Valeria Luiselli, whose *Tell Me How It Ends* is the go-to book on the child migrant crisis, and the novelist Yuri Herrera, author of the highly acclaimed *Signs*

Preceding the End of the World. Let's Talk About Your Wall uses Trump's wall as a starting point to discuss important questions, including the history of U.S.-Mexican relations, and questions of sovereignty, citizenship, and borders. An essential resource for anyone seeking to form a well-grounded opinion on one of the central issues of our day, Let's Talk About Your Wall provides a fierce and compelling counterpoint to the racist bigotry and irrational fear that consumes the debate over immigration, and a powerful symbol of opposition to exclusion and hate.

luz maria briseno: Cleopatra Dismounts Carmen Boullosa, 2007-12-01 An enchanting, audacious retelling of the Cleopatra story from a Mexican novelist who is “a luminous writer” and “a masterful spinner of the fantastic” (The Miami Herald). In *Cleopatra Dismounts*, Carmen Boullosa has written a remarkable imaginary life of one of history’s most legendary women. Dying in Marc Antony’s arms, Cleopatra bewails the end of her political career throughout ancient Egypt, Greece, and the Mediterranean. But is this weak woman the true Cleopatra? Through the intervention of Cleopatra’s scribe and informer Diomedes, Boullosa creates two deliriously wild other lives for the young monarch—a girl escaping the intrigues of royal society to disguise herself and take up residence with a band of pirates; and the young queen who is carried across the sea on the back of a magical bull, to live among the Amazons. Magical, multifaceted, and rippling with luminous imagination, *Cleopatra Dismounts* confirms Carmen Boullosa as an important international voice. “Wildly entertaining.” —The Washington Post “A highly appealing and poetic interpretation of the Egyptian queen’s doomed fate.” —San Francisco Chronicle “The Mexican fabulist Carmen Boullosa reinvents Cleopatra as a character for modern feminism to conjure with.” —The Boston Globe

luz maria briseno: The Book of Anna Carmen Boullosa, 2020-04-14 Russia, 1905. Behind the gates of the Karenin Palace, Sergei, son of Anna Karenina, meets Tolstoy in his dreams and finds reminders of his mother everywhere: the almost-living portrait that the Tsar intends to acquire and the opium-infused manuscripts she wrote just before her death, one of which opens a trapdoor to a wild feminist fairytale. Across the city, Clementine, an anarchist seamstress, and Father Gapón, the charismatic leader of the proletariat, tip the country ever closer to revolution. Boullosa lifts the voices of coachmen, sailors, maids, and seamstresses in this playful, polyphonic, and subversive revision of the Russian revolution, told through the lens of Tolstoy’s most beloved work.

luz maria briseno: *Have You Seen Marie?* Sandra Cisneros, 2012-10-02 The internationally acclaimed author of *The House on Mango Street* and winner of the PEN/Nabokov Award for Achievement in International Literature gives us a deeply moving tale of loss, grief, and healing: a lyrically told, richly illustrated fable for grown-ups about a woman's search for a cat who goes missing in the wake of her mother's death. The word "orphan" might not seem to apply to a fifty-three-year-old woman. Yet this is exactly how Sandra feels as she finds herself motherless, alone like "a glove left behind at the bus station." What just might save her is her search for someone else gone missing: Marie, the black-and-white cat of her friend, Roz, who ran off the day they arrived from Tacoma. As Sandra and Roz scour the streets of San Antonio, posting flyers and asking everywhere, "Have you seen Marie?" the pursuit of this one small creature takes on unexpected urgency and meaning. With full-color illustrations that bring this transformative quest to vivid life, *Have You Seen Marie?* showcases a beloved author's storytelling magic, in a tale that reminds us how love, even when it goes astray, does not stay lost forever.

luz maria briseno: *Confessions of a Cartel Hit Man* Martin Corona, Tony Rafael, 2017-07-25 The true confession of an assassin, a sicario, who rose through the ranks of the Southern California gang world to become a respected leader in an elite, cruelly efficient crew of hit men for Mexico's most vicious drug cartel, and eventually found a way out and an (almost) normal life. Martin Corona, a US citizen, fell into the outlaw life at twelve and worked for a crew run by the Arellano brothers, founders of the the Tijuana drug cartel that dominated the Southern California drug trade and much bloody gang warfare for decades. Corona's crew would cross into the United States from their luxurious hideout in Mexico, kill whoever needed to be killed north of the border, and return home in the afternoon. That work continued until the arrest of Javier Arellano-Félix in 2006 in a huge coordinated DEA operation. Martin Corona played a key role in the downfall of the cartel when he turned state's evidence. He confessed to multiple murders. Special Agent of the California Department of Justice Steve Duncan, who wrote the foreword, says Martin Corona is the only former cartel hit man he knows who is truly remorseful. Martin's father was a US Marine. The family had many solid middle-class advantages, including the good fortune to be posted in Hawaii for a time during which a teenage Martin thought he might be able to turn away from the outlaw life of theft, drug dealing, gun play, and prostitution. He briefly quit drugs and held down a job, but a die had been cast. He soon returned to a gangbanging life he now deeply regrets. How does someone become evil, a murderer who can kill without hesitation? This story is an insight into how it happened to one human being and how he now lives with himself. He is no longer a killer; he has asked for forgiveness; he has made a kind of peace for himself. He wrote letters to family members of his victims. Some of them not only wrote back but came to support him at his parole hearings. It is a cautionary tale, but also one that shows that evil doesn't have to be forever.

luz maria briseno: *Before* Carmen Boullosa, 2016-07-11 Carmen Boullosa is, in my opinion, a true master.—Alvaro Mutis Part bildungsroman, part ghost story, part revenge novel, *Before* tells the story of a woman who returns to the landscape of her childhood to overcome the fear that held her captive as a girl. Carmen Boullosa, one of Mexico's leading writers, has published nearly twenty novels. Her most recent novel, *Texas: The Great Theft*, won the 2014 Typographical Era Translation Award and was shortlisted for the 2015 PEN Translation Award.

luz maria briseno: *Transformation in Higher Education* Nico Cloete, 2006 This book presents the most comprehensive and most thorough study of the developments in South African higher education and research after the first democratic elections of 1994 – that is of post-Apartheid South African higher education. This volume will provide its readers with a detailed insight into the new (i.e. post-1994) South African higher education system. The large number of experienced authors and editors involved in the book guarantees that the reader will be introduced in the new SA higher education system from a large number of perspectives that are presented in a consistent and coherent way. This book will be of interest to scholars, students, administrators, policymakers and politicians interested in South Africa, higher education and research, and policy analysis. Publications on higher education are not new. But this volume, which is the first of its kind as a collective effort of tracing and examining the twists and turns taken by processes of change in the South African higher education system in a context of profound societal and global transformation, adds a fresh dimension to the debate. In its examination of the extent to which the changes were in line with policy intentions, particularly with regard to equity, democratisation, responsiveness and

efficiency, and how a new institutional landscape started emerging, it makes a momentous contribution to the current debate about higher education restructuring. Njabulo Ndebele, Vice-chancellor, University of Cape Town and Chair of the South African Association of University Vice-chancellors This book addresses a rich variety of issues on South African higher education. It puts these in the relevant context of the process of globalization and it shows that the South African experiences offer us a lot to learn. Highly recommended for those who are intrigued by the innovations taking place in South African higher education as well as for those who intend to grasp the effects of globalization. Frans van Vught, Rector Magnificus and founding Director of the Center for Higher Education Policy Studies, University of Twente, The Netherlands Reflection is a crucial ingredient to learning. In this book on higher education we have reflections on a unique period in the history of a country that managed its transition to democracy in a way that was unique, but from which we can all learn. Higher education in South Africa played a vital role in that transition and was part of the many tensions, choices and influences. They have been thoughtfully captured. Brenda Gourley, Vice-chancellor, The Open University, UK and board member, Centre for Higher Education Transformation. No contemporary higher education system has changed as dramatically as that in South Africa. This book, rich in data, examines the changes that took place and offers insights into how change frequently cannot be predicted. The analysis captures the excitement, high expectations, remarkable successes, and failures in the transformation of the apartheid system of higher education. This excellent study provides rich fare for comparative analysis. Fred M. Hayward, American Council on Education Pilot Project, Executive Vice President, Council for Higher Education Accreditation, US.

luz maria brisenó: The Scandal of the Century Gabriel García Márquez, 2019-05-14 "The articles and columns in *The Scandal of the Century* demonstrate that his forthright, lightly ironical voice just seemed to be there, right from the start . . . He's among those rare great fiction writers whose ancillary work is almost always worth finding . . . He had a way of connecting the souls in all his writing, fiction and nonfiction, to the melancholy static of the universe." --Dwight Garner, *The New York Times* From one of the titans of twentieth-century literature, collected here for the first time: a selection of his journalism from the late 1940s to the mid-1980s--work that he considered even more important to his legacy than his universally acclaimed works of fiction. I don't want to be remembered for *One Hundred Years of Solitude* or for the Nobel Prize but rather for my journalism, Gabriel García Márquez said in the final years of his life. And while some of his journalistic writings have been made available over the years, this is the first volume to gather a representative selection from across the first four decades of his career--years during which he worked as a full-time, often muckraking, and controversial journalist, even as he penned the fiction that would bring him the Nobel Prize in 1982. Here are the first pieces he wrote while working for newspapers in the coastal Colombian cities of Cartagena and Barranquilla . . . his longer, more fictionlike reportage from Paris and Rome . . . his monthly columns for Spain's *El País*. And while all the work points in style, wit, depth, and passion to his fiction, these fifty pieces are, more than anything, a revelation of the writer working at the profession he believed to be the best in the world.

luz maria brisenó: The Leatherback Turtle James R. Spotila, Pilar Santidrián Tomillo, 2015-10-30 The most comprehensive book ever written on leatherback sea turtles. Weighing as much as 2,000 pounds and reaching lengths of over seven feet, leatherback turtles are the world's largest reptile. These unusual sea turtles have a thick, pliable shell that helps them to withstand great depths—they can swim more than one thousand meters below the surface in search of food. And what food source sustains these goliaths? Their diet consists almost exclusively of jellyfish, a meal they crisscross the oceans to find. Leatherbacks have been declining in recent decades, and some predict they will be gone by the end of this century. Why? Because of two primary factors: human redevelopment of nesting beaches and commercial fishing. There are only twenty-nine index beaches in the world where these turtles nest, and there is immense pressure to develop most of them into homes or resorts. At the same time, longline and gill net fisheries continue to overwhelm waters frequented by leatherbacks. In *The Leatherback Turtle*, James R. Spotila and Pilar Santidrián

Tomillo bring together the world's leading experts to produce a volume that reveals the biology of the leatherback while putting a spotlight on the conservation problems and solutions related to the species. The book leaves us with options: embark on the conservation strategy laid out within its pages and save one of nature's most splendid creations, or watch yet another magnificent species disappear.

luz maria briseno: A Narco History Carmen Boullosa, Mike Wallace, 2016-11 The term Mexican Drug War misleads. It implies that the ongoing bloodbath, which has now killed well over 100,000 people, is an internal Mexican affair. But this diverts attention from the U.S. role in creating and sustaining the carnage. It's not just that Americans buy drugs from, and sell weapons to, Mexico's murderous cartels. It's that ever since the U.S. prohibited the use and sale of drugs in the early 1900s, it has pressured Mexico into acting as its border enforcer--with increasingly deadly consequences. Mexico was not a helpless victim. Powerful forces within the country profited hugely from supplying Americans with what their government forbade them. But the policies that spawned the drug war have proved disastrous for both countries. Written by two award-winning authors, one American and the other Mexican, *A Narco History* reviews the interlocking twentieth-century histories that produced this twenty-first century calamity, and proposes how to end it.

luz maria briseno: Why INEGI? The saga of a Mexican institution in search of the truth Instituto Nacional de Estadística y Geografía, 2021-08-19 The book presents the National Institute of Statistics and Geography, what is and how it has developed over time, since it was founded in 1983. The Institute is today an eminently technical and at the same time autonomous body of the Mexican State. Beyond a chronology of events, this book raises two needs that have marked the Institute's evolution: the first, to properly measure the many components of reality, whether social, economic or natural; and the second, decisive for the public's trust and whose absence would invalidate the purposes of the previous need, to preserve the information from any consideration, other than strictly professional, in all stages of its production and dissemination. This work conveys INEGI's transcendence as an indispensable institution for the country to respond to the fundamental question, common to all human beings: to know and understand the reality of their environment.

luz maria briseno: Car Safety Wars Michael R. Lemov, 2015-03-19 Car Safety Wars is a gripping history of the hundred-year struggle to improve the safety of American automobiles and save lives on the highways. Described as the “equivalent of war” by the Supreme Court, the battle involved the automobile industry, unsung and long-forgotten safety heroes, at least six US Presidents, a reluctant Congress, new auto technologies, and, most of all, the mindset of the American public: would they demand and be willing to pay for safer cars? The “Car Safety Wars” were at first won by consumers and safety advocates. The major victory was the enactment in 1966 of a ground breaking federal safety law. The safety act was pushed through Congress over the bitter objections of car manufacturers by a major scandal involving General Motors, its private detectives, Ralph Nader, and a gutty cigar-chomping old politician. The act is a success story for government safety regulation. It has cut highway death and injury rates by over seventy percent in the years since its enactment, saving more than two million lives and billions of taxpayer dollars. But the car safety wars have never ended. GM has recently been charged with covering up deadly defects resulting in multiple ignition switch shut offs. Toyota has been fined for not reporting fatal unintended acceleration in many models. Honda and other companies have—for years—sold cars incorporating defective air bags. These current events, suggesting a failure of safety regulation, may serve to warn us that safety laws and agencies created with good intentions can be corrupted and strangled over time. This book suggests ways to avoid this result, but shows that safer cars and highways are a hard road to travel. We are only part of the way home.

luz maria briseno: *The Ecology of Seeds* Michael Fenner, Ken Thompson, 2005-02-24 What determines the number and size of the seeds produced by a plant? How often should it reproduce them? How often should a plant produce them? Why and how are seeds dispersed, and what are the implications for the diversity and composition of vegetation? These are just some of the questions tackled in this wide-ranging review of the role of seeds in the ecology of plants. The authors bring together information on the ecological aspects of seed biology, starting with a consideration of reproductive strategies in seed plants and progressing through the life cycle, covering seed maturation, dispersal, storage in the soil, dormancy, germination, seedling establishment, and regeneration in the field. The text encompasses a wide range of concepts of general relevance to plant ecology, reflecting the central role that the study of seed ecology has played in elucidating many fundamental aspects of plant community function.

luz maria briseno: *That's BS!* Risha Grant, 2017-06-20 Companies don't have diversity problems, they have people problems. Diversity, Inclusion & Unconscious/Implicit Bias - These are words we hear almost daily now. They have become buzzwords for many people and a new revenue stream for many companies. D&I consultants and trainers have popped up to make fast money off those buzzwords but this is not the case for Risha Grant. For the past 18 years, in one of the most conservative states in the nation she has worked tirelessly to educate individuals and companies on the competitive advantage and economic value associated with embracing diversity and inclusion. That's BS is a culmination of her personal anecdotes and client experiences in running an award-winning Diversity & Inclusion (D&I) communications and consulting company. Many people she has encountered along her journey hold the misconception that D&I is complex and costly. In fact, it's simple and adds to the bottom line. She is calling BS on your bias synapse with three simple steps to identify, own and confront your bias - her focus is to help you stop making your issues someone else's fault. Personally, these steps will open your mind to unconditional acceptance and professionally they will remove barriers to assist you with creating better products and enhancing your services. Additionally, That's BS will help business and community leaders with strategies to build an inclusive culture and attract diverse markets.

Now, for the first time, the sensational story of the Penge Bungalow Murders case is told in full: how, shortly after the war, Rumpole took on the seemingly impossible task of defending young Simon Jerold, accused of murdering his father and his father's friend with a German officer's gun. And how the inexperienced young brief was left alone to pursue the path of justice, in a case that was to echo through the Bailey
