peoples energy training center: Healing Light of the Tao Mantak Chia, 2008-05-27 The guide to engaging and directing the three primordial forces of Earth, Heaven, and Higher Self to achieve enlightenment and immortality • Explains how to circulate the life force, or chi, by balancing yang (male) and yin (female) currents of bioenergy • Includes an overview of the complete Taoist body/mind/spirit system along with newly refined methods of activating the life force • The sequel to the classic *Awaken Healing Energy Through the Tao* In 1983, Mantak Chia introduced the “Microcosmic Orbit” to the West. Prior to that time, most of the Eastern energy practices transmitted to the West were incomplete, dealing only with the ascending yang/masculine channel, which shoots life-force energy up the spine. The Microcosmic Orbit showed practitioners how to establish the descending yin/feminine channel of the life-force energy loop. Within Taoist systems, cultivating feminine energy has always been seen as the key to gaining balance and wholeness. *Healing Light of the Tao* presents the more advanced methods of chi cultivation in the Microcosmic Orbit, offering a full understanding of Taoist spiritual theory through its comprehensive overview of the complete Taoist body/mind/spirit system. The book also includes more advanced meditation methods for absorbing the higher frequencies of Earth Force, Cosmic Force, and Universal Force (Heavenly chi) into the basic orbit. It establishes a spiritual science that not only emphasizes practical benefits to health, sexual vitality, and emotional balance, but also shows how changes made in the energy body can lead to physical rejuvenation that the Taoists called immortality.

peoples energy training center: *Big Bets* Rajiv Shah, 2023-10-10

“Encouraging...Uplifting...Meeting apparently insurmountable goals requires thinking big...this will inspire.” —Publishers Weekly “Raj Shah has written a practical guide to making the world a better

place. He knows what he's talking about, because he's done it himself. Anyone who wants to make a change in the world, or their own lives, will benefit from this book." —Bill Gates, Cochair, Bill & Melinda Gates Foundation

Rajiv J. Shah, president of the Rockefeller Foundation and former administrator of President Barack Obama's United States Agency for International Development, shares a dynamic new model for creating large scale change, inspired by his own involvements with some of the largest humanitarian projects of our time. Rajiv J. Shah is no stranger to pulling off the impossible, from helping vaccinate 900 million children at the Bill & Melinda Gates Foundation to a high-pressure race against the clock to stop the spread of Ebola. His secret? A big bets philosophy—the idea that seeking to solve problems rather than make incremental improvements can attract the unlikely partners with the power and know-how to achieve transformational change. Part career sweeping memoir, part inspirational playbook, *Big Bets* offers a master class in decision-making, leadership, and changing the world one bet at a time. Shah animates his strategic insights with vivid behind-the-scenes stories, memorable conversations with household names that helped shape his approach to creating change, and his own personal growth as an Indian-American from an immigrant family looking for a way to belong. He distills his battle-tested strategies for creating change, arguing that big bets have a surprising advantage over cautious ones: a bold vision can attract support, collaborations, and fresh ideas from key players who might otherwise be resistant. Throughout the book, Shah traces his unlikely path to the Rockefeller Foundation across a changing world and through some of the most ambitious, dramatic global efforts to create a better world.
