The Color of Water: Exploring the Science and Symbolism Behind the World's Most Abundant Liquid

Have you ever stopped to truly consider the color of water? We often perceive it as clear, but a closer look reveals a fascinating complexity, a subtle palette influenced by everything from dissolved particles to the light it reflects. This post delves into the intriguing science behind water's color, explores its symbolic significance across cultures, and uncovers the surprising ways different hues can indicate water quality and environmental health. Prepare to see water in a whole new light!

H2: The Science Behind Water's Color: Why Isn't it Always Clear?

Pure water, devoid of any impurities, is actually colorless. However, the water we encounter in everyday life rarely meets this definition. The apparent color stems from several factors:

Light Absorption and Scattering: Water molecules absorb light at different wavelengths. Red light is absorbed more readily than blue, which leads to the blueish tint often observed in deep bodies of water. This is why oceans appear blue – the blue light is scattered back towards our eyes, while other colors are absorbed.

Dissolved Substances: The presence of dissolved minerals, organic matter, and microscopic organisms significantly impacts water's color. For example, dissolved iron can cause a rusty brown or yellowish hue, while algae blooms can turn water green or even red. Turbidity, or cloudiness, caused by suspended sediments, also affects the overall appearance.

Reflection: The color of the sky and surrounding environment can be reflected on the water's surface, influencing its perceived color. A sunny day over a calm lake might make it appear more intensely blue or even subtly golden.

H2: The Symbolic Meaning of Water's Color Across Cultures

Beyond the scientific explanation, water's color holds profound symbolic weight in various cultures and belief systems.

Blue: Purity and Serenity: In many cultures, the deep blue of oceans and lakes is associated with purity, tranquility, and spiritual depth. Blue water often represents peace, calmness, and the vast unknown.

Green: Life and Growth: Greenish water, often associated with algae, can symbolize growth, fertility, and the abundance of life. However, excessively green water might also signal pollution or an imbalance in the ecosystem.

Brown/Yellow: Earthiness and Decay: Brownish or yellowish hues, usually indicative of sediments or decaying organic matter, can symbolize the earth, grounding, and the cyclical nature of life and death. In some contexts, however, it can also represent stagnation or pollution.

Red: Danger and Warning: Reddish water, often a result of algal blooms or pollution, is a clear warning signal. It can indicate the presence of harmful substances and a threat to the environment and human health.

H3: Interpreting Water Color for Environmental Monitoring

Observing the color of water can be a surprisingly effective way to assess water quality and environmental health. Changes in color can signal potential problems, such as:

Algal Blooms: Excessive algae growth can drastically alter water color, often indicating nutrient pollution from agricultural runoff or sewage.

Pollution: Industrial discharge or chemical spills can cause distinct color changes, revealing contamination.

Sedimentation: Increased sediment load, often from erosion or deforestation, can make water appear murky and brown, indicating potential problems with soil stability and water clarity.

H2: The Color of Water in Art and Literature

The color of water has served as a powerful motif in artistic expression throughout history. Painters have used subtle variations in hue to evoke different moods and emotions, while writers have employed evocative language to capture the essence of water's visual appeal. From the serene blues of Claude Monet's water lilies to the dramatic reds of a polluted river depicted in literature, the color of water adds depth and meaning to creative works.

H2: Conclusion: A Deeper Appreciation for Water's Hues

The seemingly simple question, "What color is water?" reveals a rich tapestry of scientific phenomena, cultural symbolism, and environmental implications. Understanding the factors influencing water's color helps us appreciate its complexity and fosters a deeper respect for this precious resource. By observing and interpreting water's hues, we can gain valuable insights into its health, its cultural significance, and the intricate balance of our ecosystems.

FAQs:

1. Why does the ocean appear blue, but a glass of water looks clear? The ocean's blue color is due to the absorption and scattering of light by water molecules over large depths. A glass of water is too shallow for this effect to be noticeable.

2. Can I use water color to determine if my tap water is safe to drink? No, water color alone is not a reliable indicator of drinking water safety. Microbial contamination and other invisible contaminants are not detectable by color. Regular testing is necessary to ensure safe drinking water.

3. What causes red tides? Red tides are caused by harmful algal blooms, often dinoflagellates, that produce toxins and discolor the water red or brownish-red.
4. How does turbidity affect water color? Turbidity, the cloudiness of water caused by suspended particles, reduces water clarity and can change its color, making it appear murky or brown.
5. What are some artistic representations of water's color? Many artists have depicted water's color throughout history, from the Impressionists' depictions of shimmering water surfaces to contemporary artists who use color to symbolize environmental concerns. Researching "water in art" will reveal numerous examples.

the color of water: The Color of Water James McBride, 2012-03-01 From the New York Times bestselling author of *Deacon King Kong* and *The Good Lord Bird*, winner of the National Book Award for Fiction: The modern classic that Oprah.com calls one of the best memoirs of a generation and that launched James McBride's literary career. More than two years on The New York Times bestseller list. As a boy in Brooklyn's Red Hook projects, James McBride knew his mother was different. But when he asked her about it, she'd simply say 'I'm light-skinned.' Later he wondered if he was different too, and asked his mother if he was black or white. 'You're a human being! Educate yourself or you'll be a nobody!' she snapped back. And when James asked about God, she told him 'God is the color of water.' This is the remarkable story of an eccentric and determined woman: a rabbi's daughter, born in Poland and raised in the Deep South who fled to Harlem, married a black preacher, founded a Baptist church and put twelve children through college. A celebration of resilience, faith and forgiveness, *The Color of Water* is an eloquent exploration of what family really means.

Who is Ruth McBride Jordan? A self-declared light-skinned woman evasive about her ethnicity, yet steadfast in her love for her twelve black children. James McBride, journalist, musician, and son, explores his mother's past, as well as his own upbringing and heritage, in a poignant and powerful debut, *The Color Of Water: A Black Man's Tribute to His White Mother*. The son of a black minister and a woman who would not admit she was white, James McBride grew up in orchestrated chaos with his eleven siblings in the poor, all-black projects of Red Hook, Brooklyn. Mommy, a fiercely protective woman with dark eyes full of pep and fire, herded her brood to Manhattan's free cultural events, sent them off on buses to the best (and mainly Jewish) schools, demanded good grades, and commanded respect. As a young man, McBride saw his mother as a source of embarrassment, worry, and confusion—and reached thirty before he began to discover the truth about her early life and long-buried pain. In *The Color of Water*, McBride retraces his mother's footsteps and, through her searing and spirited voice, recreates her remarkable story. The daughter of a failed itinerant Orthodox rabbi, she was born Rachel Shilsky (actually Ruchel Dwara Zylska) in Poland on April 1, 1921. Fleeing pogroms, her family emigrated to America and ultimately settled in Suffolk, Virginia, a small town where anti-Semitism and racial tensions ran high. With candor and immediacy, Ruth describes her parents' loveless marriage; her fragile, handicapped mother; her cruel, sexually-abusive father; and the rest of the family and life she abandoned. At seventeen, after fleeing Virginia and settling in New York City, Ruth married a black minister and founded the all-black New Brown Memorial Baptist Church in her Red Hook living room. God is the color of water, Ruth McBride taught her children, firmly convinced that life's blessings and life's values transcend race. Twice widowed, and continually confronting overwhelming adversity and racism, Ruth's determination, drive and discipline saw her dozen children through college—and most through graduate school. At age 65, she herself received a degree in social work from Temple

University. Interspersed throughout his mother's compelling narrative, McBride shares candid recollections of his own experiences as a mixed-race child of poverty, his flirtations with drugs and violence, and his eventual self-realization and professional success. *The Color of Water* touches readers of all colors as a vivid portrait of growing up, a haunting meditation on race and identity, and a lyrical valentine to a mother from her son.

After receiving a tip that promises to uncover the man behind the myth, James McBride goes in search of the “real” James Brown. McBride’s travels take him to forgotten corners of Brown’s never-before-revealed history, illuminating not only our understanding of the immensely troubled, misunderstood, and complicated Godfather of Soul, but the ways in which our cultural heritage has been shaped by Brown’s enduring legacy. It may be as close [to ‘the real James Brown’] as we’ll ever get.”—David Hajdu, *The Nation* “A feat of intrepid journalistic fortitude.”—*USA Today* “[McBride is] the biographer of James Brown we’ve all been waiting for. . . . McBride’s true subject is race and poverty in a country that doesn’t want to hear about it, unless compelled by a voice that demands to be heard.”—Boris Kachka, *New York* “Illuminating . . . engaging.”—*The Washington Post* “A gorgeously written piece of reportage that gives us glimpses of Brown’s genius and contradictions.”—*O: The Oprah Magazine*

the color of water: *Deacon King Kong (Oprah's Book Club)* James McBride, 2020-03-03 Winner of the Anisfield-Wolf Book Award for Fiction Winner of the Gotham Book Prize One of Barack Obama's Favorite Books of the Year Oprah's Book Club Pick Named one of the Top Ten Books of the Year by the New York Times, Entertainment Weekly and TIME Magazine A Washington Post Notable Novel From the author of *The Heaven & Earth Grocery Store*, the National Book Award-winning *The Good Lord Bird*, and the bestselling modern classic *The Color of Water*, comes one of the most celebrated novels of the year. In September 1969, a fumbling, cranky old church deacon known as Sportcoat shuffles into the courtyard of the Cause Houses housing project in south Brooklyn, pulls a .38 from his pocket, and, in front of everybody, shoots the project's drug dealer at point-blank range. The reasons for this desperate burst of violence and the consequences that spring from it lie at the heart of *Deacon King Kong*, James McBride's funny, moving novel and his first since his National Book Award-winning *The Good Lord Bird*. In *Deacon King Kong*, McBride brings to vivid life the people affected by the shooting: the victim, the African-American and Latinx residents who witnessed it, the white neighbors, the local cops assigned to investigate, the members of the Five Ends Baptist Church where Sportcoat was deacon, the neighborhood's Italian mobsters, and Sportcoat himself. As the story deepens, it becomes clear that the lives of the characters—caught in the tumultuous swirl of 1960s New York—overlap in unexpected ways. When the truth does emerge, McBride shows us that not all secrets are meant to be hidden, that the best way to grow is to face change without fear, and that the seeds of love lie in hope and compassion. Bringing to these pages both his masterly storytelling skills and his abiding faith in humanity, James McBride has written a novel every bit as involving as *The Good Lord Bird* and as emotionally honest as *The Color of Water*. Told with insight and wit, *Deacon King Kong* demonstrates that love and faith live in all of us.

the color of water: *Those Who Forget* Geraldine Schwarz, 2020-09-22 “[Makes] the very convincing case that, until and unless there is a full accounting for what happened with Donald Trump, 2020 is not over and never will be.” —The New Yorker “Riveting...we can never be reminded too often to never forget.” —The Wall Street Journal Journalist Géraldine Schwarz's astonishing memoir of her German and French grandparents' lives during World War II “also serves as a perceptive look at the current rise of far-right nationalism throughout Europe and the US” (Publishers Weekly). During World War II, Géraldine Schwarz's German grandparents were neither heroes nor villains; they were merely Mitläufer—those who followed the current. Once the war ended, they wanted to bury the past under the wreckage of the Third Reich. Decades later, while delving through filing cabinets in the basement of their apartment building in Mannheim, Schwarz discovers that in 1938, her paternal grandfather Karl took advantage of Nazi policies to buy a business from a Jewish family for a low price. She finds letters from the only survivor of this family (all the others perished in Auschwitz), demanding reparations. But Karl Schwarz refused to acknowledge his responsibility. Géraldine starts to question the past: How guilty were her grandparents? What makes us complicit? On her mother's side, she investigates the role of her French grandfather, a policeman in Vichy. Weaving together the threads of three generations of her family story with Europe's process of post-war reckoning, Schwarz explores how millions were seduced by ideology, overcome by a fog of denial after the war, and, in Germany at least, eventually managed to transform collective guilt into democratic responsibility. She asks: How can nations learn from history? And she observes that countries that avoid confronting the past are especially

vulnerable to extremism. Searing and unforgettable, *Those Who Forget* “deserves to be read and discussed widely...this is Schwarz’s invaluable warning” (The Washington Post Book Review).

the color of water: Come Hell Or High Water Michael Eric Dyson, Paul Elliott, 2010-10 What Hurricane Katrina reveals about the fault lines of race and poverty in America—and what lessons we must take from the flood—from best-selling “hip-hop intellectual” Michael Eric Dyson Does George W. Bush care about black people? Does the rest of America? When Hurricane Katrina tore through New Orleans and the Gulf Coast, hundreds of thousands were left behind to suffer the ravages of destruction, disease, and even death. The majority of these people were black; nearly all were poor. The federal government's slow response to local appeals for help is by now notorious. Yet despite the cries of outrage that have mounted since the levees broke, we have failed to confront the disaster's true lesson; to be poor, or black, in today's ownership society, is to be left behind. Displaying the intellectual rigor, political passion, and personal empathy that have won him fans across the color line, Michael Eric Dyson offers a searing assessment of the meaning of Hurricane Katrina. Combining interviews with survivors of the disaster with his deep knowledge of black migrations and government policy over decades, Dyson provides the historical context that has been sorely missing from public conversation. He explores the legacy of black suffering in America since slavery, including the shocking ways that black people are framed in the national consciousness even today. With this call-to-action, Dyson warns us that we can only find redemption as a society if we acknowledge that Katrina was more than an engineering or emergency response failure. From the TV newsroom to the Capitol Building to the backyard, we must change the ways we relate to the black and the poor among us. What's at stake is no less than the future of democracy.

It is a novel about the power of words and self-identification, about who gets to speak and who has the power to speak for other people. When his father accidentally discovers Niru is gay, the fallout is brutal and swift. Coping with troubles of her own, however, Meredith finds that she has little left emotionally to offer him. As the two friends struggle to reconcile their desires against the expectations and institutions that seek to define them, they find themselves speeding toward a future more violent and senseless than they can imagine. Neither will escape unscathed.

The City that Love Built in the Heart of Georgia. Population 712 Born and raised in the heart of old Dixie, D'aron Davenport finds himself in unfamiliar territory his freshman year at UC Berkeley. Two thousand miles and a world away from his childhood, he is a small-town fish floundering in the depths of a large, hyper-liberal pond. Caught between the prosaic values of his rural hometown and the intellectualized multicultural cosmopolitanism of Berkeley, the nineteen-year-old white kid is uncertain about his place until one disastrous party brings him three idiosyncratic best friends: Louis, a "kung-fu comedian from California; Candice, an earnest do-gooder claiming Native roots from Iowa; and Charlie, an introspective inner-city black teen from Chicago. They dub themselves the "4 Little Indians." But everything changes in the group's alternative history class, when D'aron lets slip that his hometown hosts an annual Civil War reenactment, recently rebranded "Patriot Days." His announcement is met with righteous indignation, and inspires Candice to suggest a "performative intervention" to protest the reenactment. Armed with youthful self-importance, makeshift slave costumes, righteous zeal, and their own misguided ideas about the South, the 4 Little Indians descend on Braggsville. Their journey through backwoods churches, backroom politics, Waffle Houses, and drunken family barbecues is uproarious to start, but will have devastating consequences. With the keen wit of Billy Lynn's Long Halftime Walk and the deft argot of *The Brief Wondrous Life of Oscar Wao*, T. Geronimo Johnson has written an astonishing, razor-sharp satire. Using a panoply of styles and tones, from tragicomic to Southern Gothic, he skewers issues of class, race, intellectual and political chauvinism, Obamaism, social media, and much more. A literary coming-of-age novel for a new generation, written with tremendous social insight and a unique, generous heart, *Welcome to Braggsville* reminds us of the promise and perils of youthful exuberance, while painting an indelible portrait of contemporary America.

the color of water: *The Things They Carried* Tim O'Brien, 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

the color of water: *Mamaleh Knows Best* Marjorie Ingall, 2016-08-30 We all know the stereotype of the Jewish mother: Hectoring, guilt-inducing, clingy as a limpet. In *Mamaleh Knows Best*, Tablet Magazine columnist Marjorie Ingall smashes this tired trope with a hammer. Blending personal anecdotes, humor, historical texts, and scientific research, Ingall shares Jewish secrets for

raising self-sufficient, ethical, and accomplished children. She offers abundant examples showing how Jewish mothers have nurtured their children's independence, fostered discipline, urged a healthy distrust of authority, consciously cultivated geekiness and kindness, stressed education, and maintained a sense of humor. These time-tested strategies have proven successful in a wide variety of settings and fields over the vast span of history. But you don't have to be Jewish to cultivate the same qualities in your own children. Ingall will make you think, she will make you laugh, and she will make you a better parent. You might not produce a Nobel Prize winner (or hey, you might), but you'll definitely get a great human being.

the color of water: Weeds Change the Colour of Water Justin Cantrell, 2020-11-13 weeds change the colour of water... is a speculative effort, one dreamt to collect ideas, interpretations, and interactions. By listening patiently, we may come to recognise some pattern in the tangle that surrounds and involves us - a spot to sense that, like a weed, we are insecurely tethered amid choppy and changing waters, which now, more than usual, have us flailing and adrift. This text was compiled to accompany the release of *Wound Without A Tear*, a compilation of Australian Ambient and Experimental Music. The fifteen-year period that collection cites—a period of early 90s post-rave ethereality defined by pleasure-centred spaces (chill-out rooms) and the personal computer's emergence as a popular tool for file-sharing and secondary-living in the 2000s - is befitting of closer examination.

the color of water: The Color of Water James McBride, 1998-10-13 As a boy in Brooklyn's Red Hook projects, James McBride knew his mother was different. But when he asked about it, she'd simply say 'I'm light-skinned.' Later he wondered if he was different too, and asked his mother if he was black or white. 'You're a human being,' she snapped. 'Educate yourself or you'll be a nobody!' And when James asked what colour God was, she said 'God is the colour of water.' As an adult, McBride finally persuaded his mother to tell her story - the story of a rabbi's daughter, born in Poland and raised in the South, who fled to Harlem, married a black man, founded a Baptist church, and put twelve children through college.

the color of water: A Very Large Expanse of Sea Tahereh Mafi, 2018-10-16 Longlisted for the National Book Award for Young People's Literature! From the New York Times and USA Today bestselling author of the *Shatter Me* series comes a powerful, heartrending contemporary novel about fear, first love, and the devastating impact of prejudice. It's 2002, a year after 9/11. It's an extremely turbulent time politically, but especially so for someone like Shirin, a sixteen-year-old Muslim girl who's tired of being stereotyped. Shirin is never surprised by how horrible people can be. She's tired of the rude stares, the degrading comments—even the physical violence—she endures as a result of her race, her religion, and the hijab she wears every day. So she's built up protective walls and refuses to let anyone close enough to hurt her. Instead, she drowns her frustrations in music and spends her afternoons break-dancing with her brother. But then she meets Ocean James. He's the first person in forever who really seems to want to get to know Shirin. It terrifies her—they seem to come from two irreconcilable worlds—and Shirin has had her guard up for so long that she's

not sure she'll ever be able to let it down.

the color of water: Life on the Color Line Gregory Howard Williams, 1996-02-01 “Heartbreaking and uplifting... a searing book about race and prejudice in America... brims with insights that only someone who has lived on both sides of the racial divide could gain.”—Cleveland Plain Dealer “A triumph of storytelling as well as a triumph of spirit.”—Alex Kotlowitz, award-winning author of *There Are No Children Here* As a child in 1950s segregated Virginia, Gregory Howard Williams grew up believing he was white. But when the family business failed and his parents' marriage fell apart, Williams discovered that his dark-skinned father, who had been passing as Italian-American, was half black. The family split up, and Greg, his younger brother, and their father moved to Muncie, Indiana, where the young boys learned the truth about their heritage. Overnight, Greg Williams became black. In this extraordinary and powerful memoir, Williams recounts his remarkable journey along the color line and illuminates the contrasts between the black and white worlds: one of privilege, opportunity and comfort, the other of deprivation, repression, and struggle. He tells of the hostility and prejudice he encountered all too often, from both blacks and whites, and the surprising moments of encouragement and acceptance he found from each. *Life on the Color Line* is a uniquely important book. It is a wonderfully inspiring testament of purpose, perseverance, and human triumph. Winner of the Los Angeles Times Book Prize

the color of water: Bastards: A Memoir Mary Anna King, 2015-06-22 Searing . . . explores how identity forms love, and love, identity. Written in engrossing, intimate prose, it makes us rethink how blood's deep connections relate to the attachments of proximity.—Andrew Solomon, author of *Far from the Tree* In the early 1980s, Mary Hall is a little girl growing up in poverty in Camden, New Jersey, with her older brother Jacob and parents who, in her words, were great at making babies, but not so great at holding on to them. After her father leaves the family, she is raised among a commune of mothers in a low-income housing complex. Then, no longer able to care for the only daughter she has left at home, Mary's mother sends Mary away to Oklahoma to live with her maternal grandparents, who have also been raising her younger sister, Rebecca. When Mary is legally adopted by her grandparents, the result is a family story like no other. Because Mary was adopted by her grandparents, Mary's mother, Peggy, is legally her sister, while her brother, Jacob, is legally her nephew. Living in Oklahoma with her maternal grandfather, Mary gets a new name and a new life. But she's haunted by the past: by the baby girls she's sure will come looking for her someday, by the mother she left behind, by the father who left her. Mary is a college student when her sisters start to get back in touch. With each subsequent reunion, her family becomes closer to whole again. Moving, haunting, and at times wickedly funny, *Bastards* is about finding one's family and oneself.

the color of water: The Soul of Judaism Bruce D. Haynes, 2018-08-14 Explores the full diversity of Black Jews, including bi-racial Jews of both matrilineal and patrilineal descent; adoptees; black converts to Judaism; and Black Hebrews and Israelites, who trace their Jewish roots to Africa and challenge the dominant western paradigm of Jews as white and of European descent. The book showcases the lives of Black Jews, demonstrating that racial ascription has been shaping Jewish selfhood for centuries. It reassesses the boundaries between race and ethnicity, offering insight into

how ethnicity can be understood only in relation to racialization and the one-drop rule. Within this context, Black Jewish individuals strive to assert their dual identities and find acceptance within their communities. Putting to rest the notion that Jews are white and the Black Jews are therefore a contradiction, the volume argues that we cannot pigeonhole Black Hebrews and Israelites as exotic, militant, and nationalistic sects outside the boundaries of mainstream Jewish thought and community life. It spurs us to consider the significance of the growing population of self-identified Black Jews and its implications for the future of American Jewry.

the color of water: African American Identity Jas M. Sullivan, Ashraf Esmail, 2012-04-26 Jas M. Sullivan and Ashraf M. Esmail's African American Identity: Racial and Cultural Dimensions of the Black Experience is a collection which makes use of multiple perspectives across the social sciences to address complex issues of race and identity. The contributors tackle questions about what African American racial identity means, how we may go about quantifying it, what the factors are in shaping identity development, and what effects racial identity has on psychological, political, educational, and health-related behavior. African American Identity aims to continue the conversation, rather than provide a beginning or an end. It is an in-depth study which uses quantitative, qualitative, and mixed methods to explore the relationship between racial identity and psychological well-being, effects on parents and children, physical health, and related educational behavior. From these vantage points, Sullivan and Esmail provide a unique opportunity to further our understanding, extend our knowledge, and continue the debate.

the color of water: Notes on Grief Chimamanda Ngozi Adichie, 2021-05-11 From the globally acclaimed, best-selling novelist and author of *We Should All Be Feminists*, a timely and deeply personal account of the loss of her father: "With raw eloquence, *Notes on Grief* ... captures the bewildering messiness of loss in a society that requires serenity, when you'd rather just scream. Grief is impolite ... Adichie's words put welcome, authentic voice to this most universal of emotions, which is also one of the most universally avoided" (The Washington Post). *Notes on Grief* is an exquisite work of meditation, remembrance, and hope, written in the wake of Chimamanda Ngozi

Adichie's beloved father's death in the summer of 2020. As the COVID-19 pandemic raged around the world, and kept Adichie and her family members separated from one another, her father succumbed unexpectedly to complications of kidney failure. Expanding on her original New Yorker piece, Adichie shares how this loss shook her to her core. She writes about being one of the millions of people grieving this year; about the familial and cultural dimensions of grief and also about the loneliness and anger that are unavoidable in it. With signature precision of language, and glittering, devastating detail on the page—and never without touches of rich, honest humor—Adichie weaves together her own experience of her father's death with threads of his life story, from his remarkable survival during the Biafran war, through a long career as a statistics professor, into the days of the pandemic in which he'd stay connected with his children and grandchildren over video chat from the family home in Abba, Nigeria. In the compact format of *We Should All Be Feminists* and *Dear Ijeawele*, Adichie delivers a gem of a book—a book that fundamentally connects us to one another as it probes one of the most universal human experiences. *Notes on Grief* is a book for this moment—a work readers will treasure and share now more than ever—and yet will prove durable and timeless, an indispensable addition to Adichie's canon.
